Technical drawing of a safety harness system. It includes a series of icons: a textured surface, a vertical strap, a leg loop with an arrow, a waist strap, a leg loop with a '2' indicating two points, a buckle, a person in a harness, and a diagram of a fall arrest system. To the right are two red shield-shaped logos: one with a white symbol and the text 'EN 14404+A1', and another with the 'CE' mark and the text 'EN13888:20'.
